BTS GTLA allows you to :

- enter into the workforce of a dynamic line of business
- develop professionally, take initiatives and assert oneself
- become head of a company one day

The holder of BTS GTLA plans and manages transport and logistics operations on local, regional, national , European and international markets. In a context of globalisation, he/she optimises exchanges and takes into account the different means of transports and sustainability. He/she acts as a co-ordinator between the departments of the company and the outside partners.

The holder of BTS GTLA

- Provides pieces of advice and organisation to customers at a local, national and international level
- Plans the transport of goods by road, rail, sea or air
- Manages a team
- Estimates prices and manages budgets
- Implements means whose characteristics are constantly evolving
- Manages relationships with internal or external partners
