The BTS MV-Maintenance des Véhicules (Car Maintenance) enables you to get a job in aftersale vehicles.

Thanks to the range of activities experienced all year long, you'll be able to work at/in:

- at after-sales services from the networks of manufacturers or equipment manufacturers,
- after-sales services from the networks of independant garages or firms,
- the maintenances services for vehicle fleets (in MVTR in particular),
- manufacturer or equipment manufacturer assistance platforms.

Diagnostic and maintenance technician, after-sales receptionist, technical advisor, workshop team leader, "hot line" technical advisor for a manufacturer or equipment manufacturer, workshop manager, so many professions in which you can mobilize vos compétences techniques (diagnostic complexe, opérations de maintenance et de réparation complexes, ...),

- your technical skills (complex diagnosis, complex maintenance and repair operations, etc.),
- your commercial and relational skills (customer relations, teamwork, etc.),
- as well as your computer skills (specialized software and others).

You will also ensure compliance with technical and environmental regulations and the quality of after-sales service.
